**Hi,**

I'm Julius, a graphic designer, born in Bequia, and lives in **Montreal**. With a strong foundation in **Adobe Creative Suite**, **typography**, **branding** and **web development**, I create designs that not only look great but also tell a compelling story.

**Welcome to my portfolio!**

### Type of work

Client work

### Tools:

Illustrator  
Photoshop  
InDesign  
Canva

### Project/s

Retro soda machine branding, store signage and more

### Challenge

Design a landing page and social media content for Stokes' new product with a consistent brand concept. Create web banners and store signs to promote on sale products.

### Solution

Use a consistent set of colors, layout and designs to give a retro 'bubbly' feeling on the product. Store signages and web banners are designed in a way that is easy to read, mobile friendly and match the stokes brand and attract audience in stores.

### START SPARKLING!

Prepare sparkling beverages at home with the Retro Soda Machine. Compatible with most CO2 cylinders, including Indigo Soda. It helps save on single-use cans of while making delicious bubbly drinks.

Black Oatmeal White

Features  
**WHY RETRO?**

- 1L to-go bottle
- Eco-friendly solution
- No electricity needed
- 2 easy buttons
- Pressure gauge
- Compatible with most CO2 cylinders

Easy To Use  
**Make fresh sparkling water at the touch of a button!**

Small button  
Pressure gauge  
Big button

### Convenient Only a three step process

- FILL**  
Start by pouring some cold water into the bottle and screwing it into the machine.
- FIZZ**  
Then, simply push the carbonating button - repeatedly, depending on how much fizz you want.
- ENJOY!**  
Unscrew the bottle once the carbonation is completed to your satisfaction and add the flavor of your choosing.

### Recipe Ideas Let's get started!

**Need more Bottles?**

Prepare sparkling beverages at home with the Retro Soda Machine. Compatible with most CO2.

InDesign

Project

Name and design a brand identity

Challenge

Naming a tropical juice brand and design its brand logo and guidelines.

Solution

I decided to name the brand "Bequia", after a small island in the Caribbean. I made a wordmark logo which the curves in the letters are inspired from the whale in the flag which represents Bequia. The color palette resonates from the different colors of the beautiful shops/buildings located in the harbour of Bequia. The packaging also resonates from the beautiful streets of the Bequia harbour.

**Type of work**

Branding

**Tools:**

Illustrator  
Photoshop  
Adobe XD

**Project**

Name and design a brand identity

**Challenge**

Naming a sportswear brand and design their brand identity.

**Solution**

I decided to name the brand “Bezoir” which means to move rapidly and decisively. I included elements of the speed of light, and the curvature of athletic race tracks. Bezoir will focus on science and technology to improve athlete’s performances with their sportswear.

**Naming propositions**

**BEZOIR**

BE + ZOIROS (brisk in greek)

**ALACER**

Brisk meaning in latin

**SPEOZ**

Speed + Zoiros

Packaging & Editorial

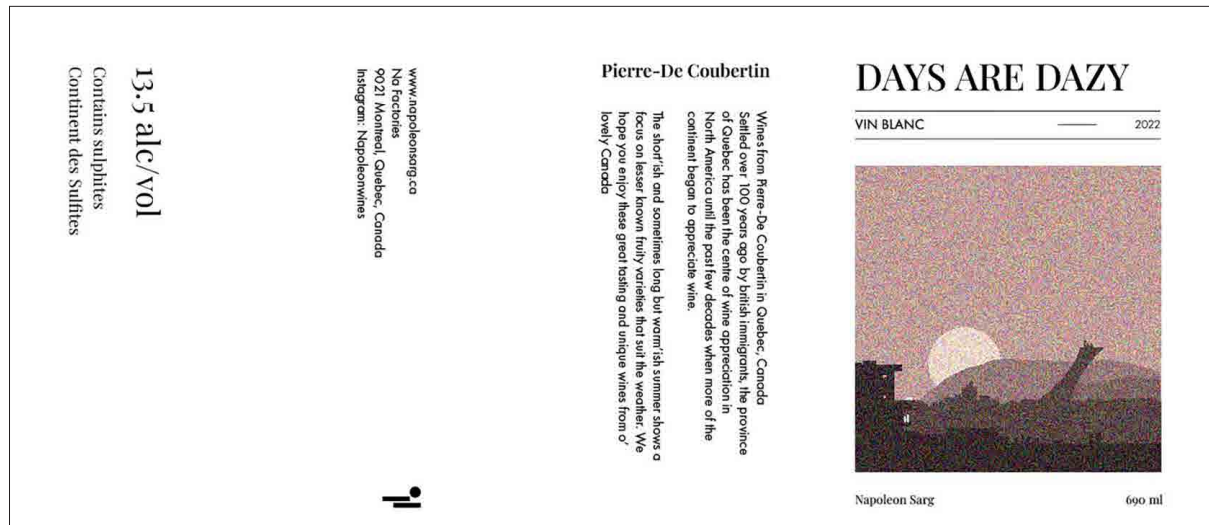

**Tools:**  
Illustrator  
InDesign  
Photoshop

**Project**  
Create a training manual

**Challenge**  
Create and design a training manual to train people to get the popular 360 waves hairstyle

**Solution**  
I decided to make a straight forward but effective training manual. To make the user's experience fun while going through the manual, I used hierarchy to the greatest effect in the bright and contrasting colors and fonts.

### Type of work

Packaging

### Tools:

Illustrator  
InDesign  
Photoshop

### Project

Create and design wine labels

### Challenge

Design a series of wine labels and keep a consistent style for each.

### Solution

I decided to name the wine label "DAYS ARE DAZY", a wine made in Pierre-De Coubertin. Made to drink on days where you just want to sit back and relax. Using colors that relate to each of the wine's taste, a similar layout and illustrations with subtle changes creates a unity in the label designs.

**Type of work**

Branding / photo editing

**Tools:**

Photoshop  
Illustrator

**Project**

Design and develop design concepts for different football teams

**Challenge**

Create new designs/social media concepts for each soccer team while keeping their branding in mind

**Solution**

By using the colors and patterns in the following soccer teams' brand I was able to create different marketing concepts that can be used for the teams instagram posts and web banners etc.

**Project**

Brand Vanier's Micromedia program Vernissage event

**Challenge**

Use a series of promotional materials and techniques to promote the event

**Solution**

Communicate the theme 'disconnected from the world, connected to design' using a distinct illustration style where a character with a typical 'designer look' is disconnected from the blank world around him, but he stays connected to design through his headphones, this phenomenon describes most of the students in the program. Fonts and colors stay consistent with the theme and throughout all promotional materials.

# OST Micropublishing and Hypermedia VERNISSAGE

## 4|13|2023

**Type of work**

Packaging

**Tools:**

Illustrator  
InDesign  
Photoshop

**Project**

Book covers

**Challenge**

Design a series of book covers that keep a consistent visual identity

**Solution**

I decided to make a series of book covers for football fans who want to know more about famous football managers in Europe. Unity is kept between the series of covers by using the same layout, fonts and silhouette illustration style.

# HIGHLANDS

FOUNDED IN 2022

**Type of work**  
Editorial Design

**Tools:**  
Illustrator  
InDesign  
Photoshop

**Project**  
Design Magazine Covers

**Challenge**  
Name a magazine and design a series of covers for it

**Solution**  
I decided to make 'Highlands' a global magazine that showcases the lives of young men and women who are at the peak of their careers. The youths are all in the fashion, technology, acting, music and sporting industry. Highlands main target audience are people from the ages of 12-35 who appreciate these industries.

**Type of work**  
Illustration

**Tools:**  
Illustrator, Procreate

**Project**  
Illustrate anything

**Challenge**  
Emphasize the feelings of a metro station

**Solution**  
For me, Joliette metro is always empty during the day, and lively at night. The two illustrations symbolize the night life of Joliette metro with vivid colors, movement and people going in and out and the daytime where it seems to be always empty and deserted.

**Type of work**  
Illustration

**Tools:**  
Illustrator

**Project**  
Perspective illustration

**Challenge**  
Illustrate a small store from a bird's eye perspective

**Solution**  
I decided to illustrate a small local store giving it a color palette and a grain texture to give off a late evening atmosphere.

**Type of work**

Illustration

**Tools:**

Illustrator, Photoshop

**Project**

Illustrate a social media post

**Challenge**

Illustrate an Instagram post promoting the season 4 for Netflix series "Sex Education".

**Solution**

Illustrate 2 of the main characters in the Netflix series showing their personalities. Emma who is more laid back, and Asa who is very shy.

Visual Studio Code

### Project

Design a website for a national park in Canada

### Challenge

Design a website for the Banff National Park

### Solution

I decided to make a bilingual and easy to use website so that all users can get to any section of the website with just one click of a button. On the landing page a beautiful photo of the top of the Banff National Park with a call to action for the users to learn more about the park.

## ABOUT

Canada's first national park, established in 1885, is located in Banff, Alberta. It has been claimed as a UNESCO Heritage Site. The scenery includes clear bodies of water like Lake Louise and the famous Canadian Rockies. There is abundant wildlife and interesting flora. Enjoy your stay at various resorts, hotels, chalets, and lodges. Participate in the many activities offered and take in the beautiful destination.

## ACTIVITIES

Banff National Park is open all year round and provides numerous activities fit for anyone. Whether you're alone or with friends and family, you'll never be bored.

### Biking

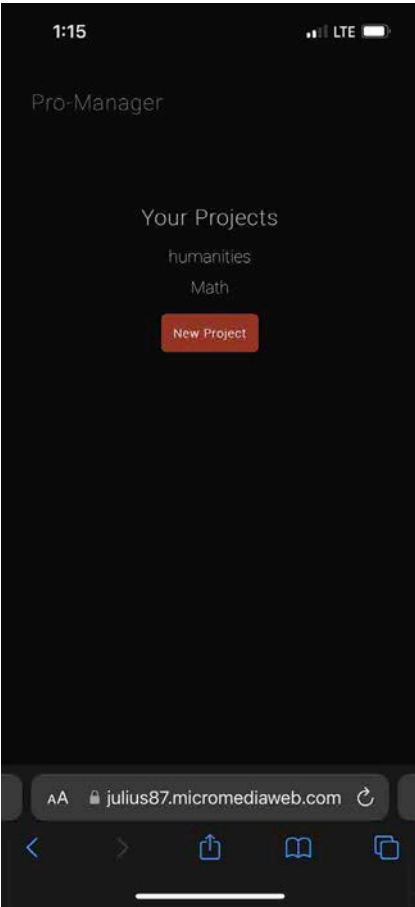

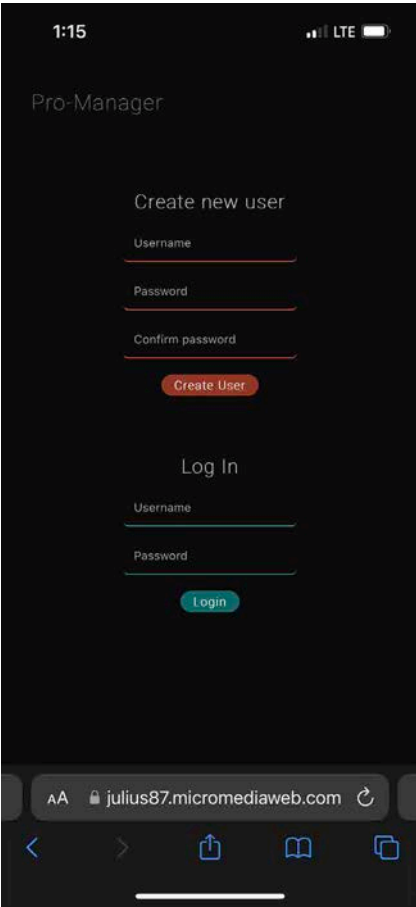

The most ideal way to experience the amazing sights of Banff is through our sightseeing bike tours. Be ready to view the Vermilion Lakes and adorable birds on the journey. Enjoy a lakeside picnic and snap lots of pictures to capture all of its glorious beauty.

**Type of work**

App design

**Tools:**

Visual Studio Code

**Project**

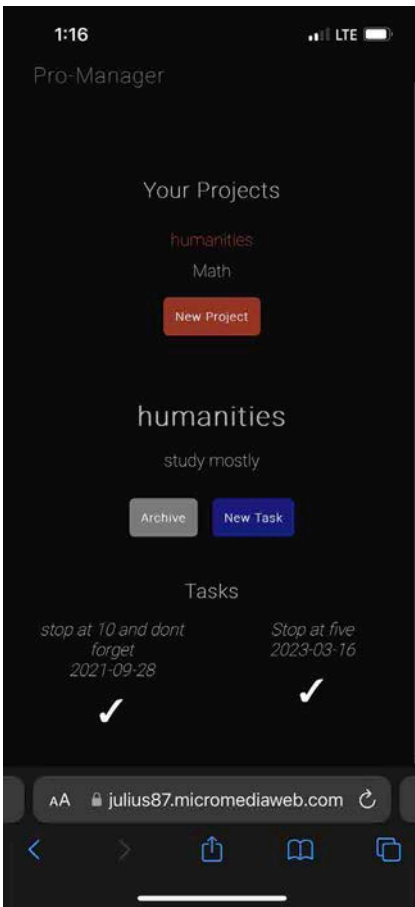

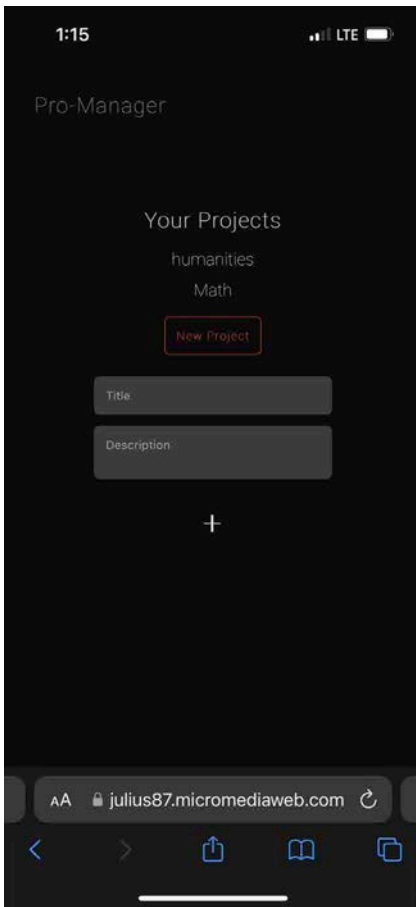

Create mobile-first project management app

**Challenge**

Design and name an interactive user interface for the app

**Solution**

For this project I had to design a user interface for a project manager application. I created Pro-Manager. A project manager application that is easy to function and manipulate. It has a dark colour scheme for users who struggle from eye strain caused by bright colours. The app has simple hover transitions on each button, making it very user friendly and it also has different hierarchy of text making it easy for the user to differentiate the tasks, active and inactive projects. You can create a project with a description by clicking on the new project button. To see information on a project you have created, users can simply click on one of their projects (turning the active project name into an orange colour), and all of the information will be available to them. They can also add tasks with deadlines with the simple click of a button. To complete a task, users can click on the tick located right under it. Whenever a user wants to, they can archive a project by clicking on the archive button.

### Type of work

Web development/design

### Tools:

Visual Studio Code

Illustrator

### Project

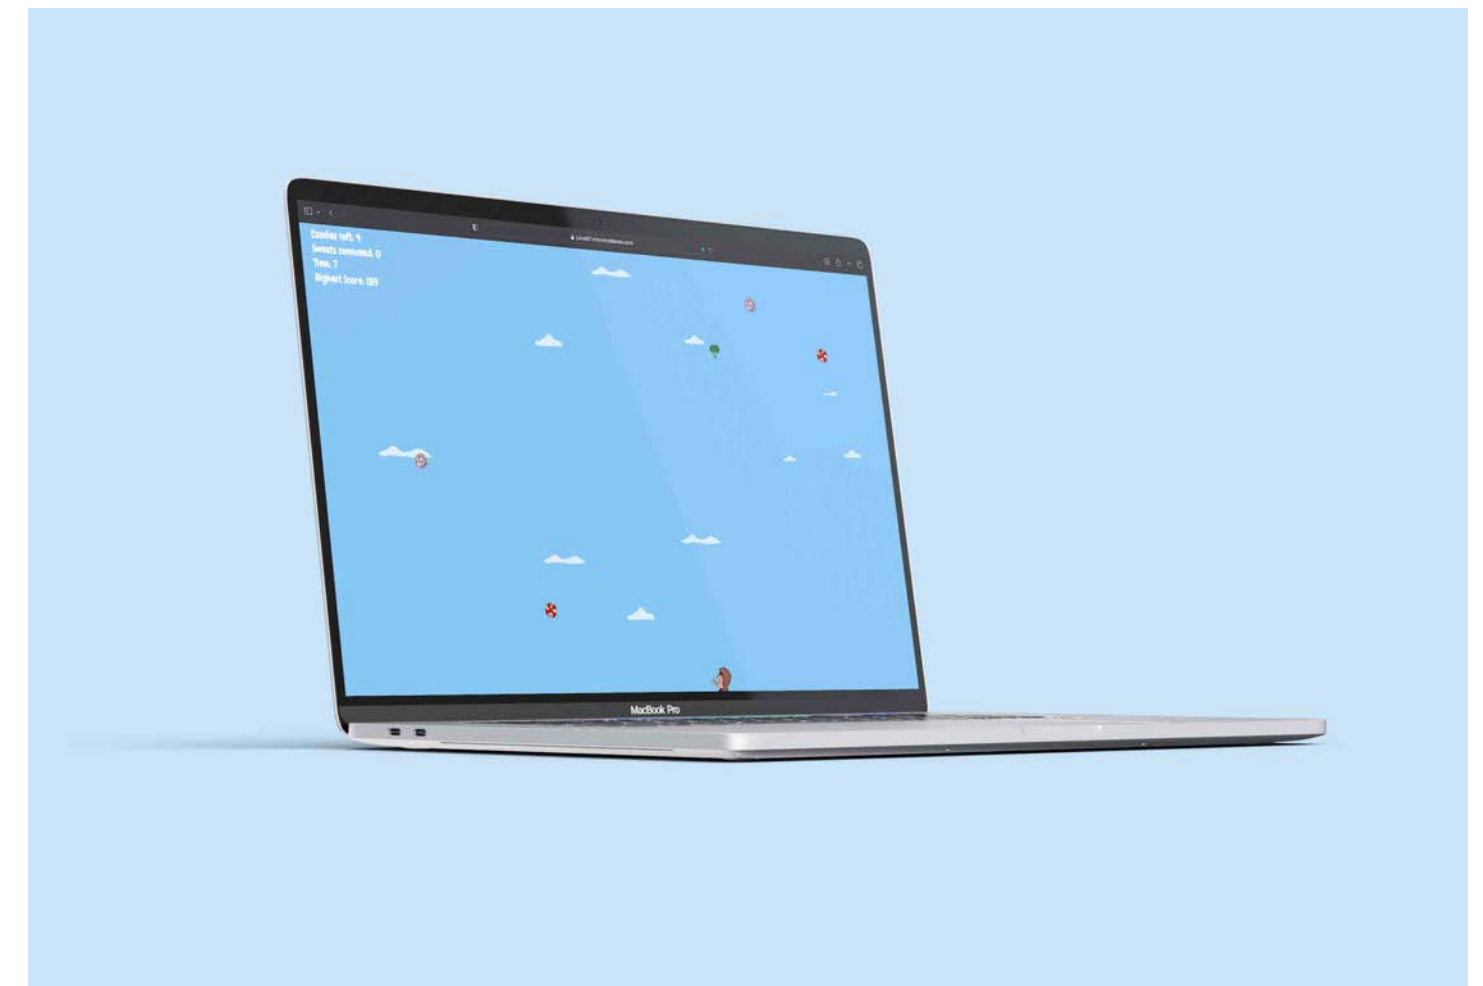

Design and develop a web game

### Challenge

Make a user friendly game

### Solution

With the use of cartoony illustrations, and basic left and right controls, I decided to make Sweet Tooth, a game where the user (Tyler), will try to keep a sugar rush for as long as possible. The game interface is interactive and user-friendly, users can get to different parts of the game with one click.

**Type of work**

Web/game design

**Tools:**

Adobe Illustrator

**Project**

Game design for an online educational platform for business students of Vanier, John Abbot and Dawson College.

**Challenge**

Illustrate character's bust up.  
Illustrate buildings from bird's eye view.  
Design banners.

**Solution**

For this project, me and the collaborators decided to make the game design concept with influence from Walmart. I decided to illustrate buildings and employees based of Walmarts colors, typography and atmosphere.
